Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Thursday 25 Nov 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Colder with sunny spells, but also some showers, wintry north.

Today:
Cloud and patchy rain in the south soon clearing, then many inland areas dry with sunny spells. Showers affecting northern Scotland and also north facing coastal districts further south. Rain into northwest later.

Tonight:
Clear and frosty in south, but clouding over later. Rain, heavy in places, moving south across northern and central parts, briefly falling as snow over hills in north. Becoming windy.

Friday:
Rain, some heavy, moving south, then colder with blustery heavy showers, falling as snow over high ground. Severe gales into northern areas with blizzards in the Scottish mountains later.

Outlook for Saturday to Monday:
Cold Saturday with mixture of rain, sleet and snow showers, accompanied by gales. Improving through Sunday; widely fine after frosty start, but further cloud/rain slowly spreading in from the west.
